

"It is nice to look at Villages of the friends"

Article #4

Januaru 24,2023 by Peppe Apuleo

In this article I will tell you about a Christmas village with the dimensions of 360cmx70cm developed on 1 floors. The town was built by a friend of mine named Maestri Maura. As you can see from the overall photo, the Christmas elements immediately emerge, snow, snow-covered plants, characters and a beautiful backdrop that frames the village above all. The theme of the village is the north pole and the Santa wonderland

An innovative village, new and full of details. Very harmonious, full of colors that create contrast with the white of the snow

An area of the village where there are many characters who combined with the various settings give life to a realistic scene of a real village.
